

WSQ COURSEWARE

Agentic AI for Video Creation

Lesson Plan

Course Code	TGS-2023036088
Technical Skills and Competencies	MED-MPN-4005-1.1 - Video Editing-4
Version	v3.0
Release Date	15 September 2026
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)
Trainer	Dr Alfred Ang

Controlled document. Verify the version before use.

Document Control

Document	Version	Date	Owner	Change summary
Lesson Plan	2.0	29 August 2026	Tertiary Infotech Academy Pte Ltd	Agentic-video workflow with n8n, generative media, approval and YouTube release controls
Lesson Plan	3.0	15 September 2026	Tertiary Infotech Academy Pte Ltd	Replaced n8n with Hermes Agent, MiniMax M3, FRAME-CUT prompting, video skills, Kanban multi-agent orchestration and scheduled private YouTube publishing

1. Course and Delivery Information

Course	Agentic AI for Video Creation
Course code	TGS-2023036088
TSC	MED-MPN-4005-1.1 - Video Editing-4
Duration	2 days / 16 training hours
Assessment	2 hours: Written Assessment 60 minutes + Practical Performance 60 minutes
Delivery mode	Facilitated classroom or synchronous learning with Hermes Desktop learner projects
Required resources	Course deck, Learner Guide, eight lab folders, Hermes Desktop, MiniMax M3 access, Remotion/Manim/Higgsfield options and FFmpeg

2. Learning Outcomes

- LO1: Develop an editing strategy and work plan in Hermes Agent using MiniMax M3, structured video prompts and governed tool selection.
- LO2: Create and customise an evidence-backed video with Hermes skills, Remotion, Manim, Higgsfield-compatible requests and deterministic media checks.
- LO3: Orchestrate research, production, review and YouTube release agents through a durable Kanban board and controlled scheduled publishing.

3. Facilitation Principles

- Use the PPT for mechanism visualisation, technical dialogue and evidence interpretation; do not demonstrate click-by-click procedures from the slides.
- Use the Learner Guide and lab PDFs for detailed procedures, prompts, troubleshooting and acceptance checks.
- Keep all external publishing actions disabled or dry-run during learner practice.
- Require observable execution evidence before accepting an agent response or learner conclusion.

4. Day 1 Detailed Schedule

Time	Topic / activity	Method	Resources	Evidence / outcome
09:00–09:30	Administration, attendance, context and outcomes	Facilitated briefing	Slides 1–14	Attendance confirmation; learner context
09:30–11:00	Hermes Desktop, MiniMax M3 and credential boundaries	Mechanism dialogue + guided setup	Slides 15–38	Setup evidence; redacted model verification
11:00–13:00	FRAME-CUT prompt, structured shot plan and stop rules	Technical explanation + critique	Slides 39–64	Prompt contract and timed storyboard rationale
13:00–14:00	Lunch	—	—	—
14:00–17:15	Labs 01–03: Hermes setup, simple video and FRAME-CUT	Guided lab; individual execution evidence	Topic 1 lab slides + LG §5.1–5.3	MiniMax-M3 check; MP4 preview; prompt Markdown/PDF; verifier evidence
17:15–18:00	Checkpoint and transfer challenge	Peer review + facilitated debrief	Slides 74–75	Explained failure class, threshold, evidence and owner

4. Day 2 Detailed Schedule

Time	Topic / activity	Method	Resources	Evidence / outcome
09:00–10:45	Remotion, Manim, Higgsfield, FFmpeg and Hermes skill anatomy	Mechanism dialogue + technical demonstration	Slides 76–105	Tool registry; skill contracts; render evidence
10:45–12:30	Custom brand-video skill, technical QA and repair	Evidence review + skill construction	Slides 106–133	Branded MP4, probe, review and versioned repair
12:30–13:30	Lunch	—	—	—
13:30–15:15	Labs 04–06: tools, custom skill and multi-agent workflow	Guided lab; verifier-led evidence	Topic 2/3 lab slides + LG §5.4–5.6	Tool registry, branded video and role handoffs
15:15–16:00	Labs 07–08: Kanban, private YouTube upload and cron	Dry-run orchestration + decision review	Slides 134–184; LG §5.7–5.8	Kanban graph, upload preview and paused cron evidence
16:00–17:00	Written Assessment (SAQ)	Individual assessment	Assessment paper	Five responses covering K1–K5
17:00–18:00	Practical Performance	Individual performance assessment	Assessment tasks + lab environment	Three tasks covering A1–A6

5. Assessment and Evidence Plan

Component	Duration	Coverage	Evidence	Assessor control
Written Assessment (SAQ)	60 min	K1–K5	Five open-ended responses	Identity check, independent completion, complete answer capture
Practical Performance	60 min	A1–A6	Hermes project, prompt contract, skill or agent evidence, output artifacts and remediation decision	Observe task performance; preserve learner evidence; record outcome

6. Trainer Preparation Checklist

- Confirm the course identity, version and 200-slide deck before class.
- Verify that every lab folder contains README, AI-PROMPTS Markdown/PDF, synthetic data, starter files, evidence checklist and verify.py.
- Confirm Hermes Desktop and MiniMax-M3 access; keep YouTube private and cron paused until the named approval gate.
- Confirm assessment candidate papers are learner-accessible; retain answer keys in trainer-private storage only.
- Test LMS and attendance access without exposing credentials on projected screens.
